MY THEORY AND TREATHENT

Are new and different from any one in the United States, and I challenge any one to produce the same success that I have met with in treating Chronic Diseases. My theory is based upon the chemical operations of the body, believing diseases to depend upon a disproportioned condition of the fluids of the body, whereby the solids be come unhealthy by analysing the secretions, blood, &c., of the body, and finding out what is deficient or in excess and supplying to the system what is wanting. I amenabled to cure often by a small amount of medicines, where the patient has been drugged with medicines for long years to no effect.

Now Dyspepsia, in the great majority of cases, dedends mainly upon a disproportioned state of the gastric or digestive fluids of the stomach. When this gastic fluid is proportioned properly, the food is thoroughy digested and assimilated. Viewing Dyspepsia by the rules of Chemicopathology, and giving treatment accordingly, I am enabled to cure 49 cases out of 50, and 49 cases out 50 of Consumpation. Asthma, Bronchitis and Laryngitis, and Liver Condiant, Piles, Neuralgia, Dizziness or Sick Headache, Nervous Debility and Female Diseases—in every case a cure, and other diseases proportionately.

case a cure, and other diseases proportionately.

CONSUMPTION.

CO an application to the diseased Lung and Throat as we could to a sore anywhere on the exterior of the

body. Dr. M. uses pure Chemicopathic and Botanic Remedies. He gives a mild tome treatment which acts chemically, and assists Nature to free herself. One ounce of assistance to Nature is worth a pound of concus drugs to the disease,
